IMPORTANT COVID-19 UPDATE

Since the outbreak of Coronavirus COVID-19, we have closely monitored the information provided by the Centers for Disease Control (CDC) and have taken every precaution to protect the health of our patrons, employees and volunteers at all Massapequa Public Library locations while ensuring the continuity of library operations. Those measures include temporarily closing the Massapequa Public Library buildings located at Bar Harbour and Central Avenue, having our employees work remotely from home and urging our patrons to avail themselves of our on-line programs.

We have just become aware of one confirmed case of an individual with the COVID-19 virus at our Central Avenue location with a possible exposure date of March 11, 2020. All staff who may have been exposed at those locations are under home quarantine for two weeks. If you visited the Central Avenue location in the past few weeks and are experiencing symptoms of COVID-19, please contact your medical professional and take the appropriate measures recommended by CDC [here](#).

Please stay safe.
